

Comfort Zone™

by GOLDEN

WE PATENTED COMFORT™

Comfort Zones 1 and 2 work together for individualized positioning of the upper and lower body, along with Comfort Zone 5 to elevate your wellness comfort experience with our patented Twilight Technology.

The patented four-way motion of the seat helps provide relief to muscle and joint pain by placing your lower body in a supported ergonomic position.

Comfort Zone Video: <https://youtu.be/fp50u6hXnEo>

Zone 2

UPPER BODY

The independent movement of the backrest allows stress and strain to be released from your upper body by offering adjustable support for your back and shoulders.

Zone 5

TWILIGHT TILT

The tilting motion of the patented Twilight Technology provides a feeling of weightlessness and offers even more positioning options not available with other recliners. Encourage circulation by relaxing with your legs elevated or promote the release of muscle tension and joint pain in a comforting neutral position.
